Economical

The CorrectPac® system allows you to forecast and document the use of cleaning detergents for accurate and controlled applications. It also helps you monitor inventories and budgets and provides the data necessary for compliance. As a result, fewer products are used, simplifying training and standardizing operations.

Easy to Use & Control

Color-coded products, accessories and SDS ensure that the right products are used correctly. Education and support materials are easy to understand and use international symbols to help personnel learn efficiently.

Environmentally Sustainable

Every CorrectPac® product delivers effective cleaning, cost savings and environmentally responsible formulations without VOC's. Minimal packaging saves resources and reduces disposal cost. Maximum concentrates conserve energy in manufacturing, shipping and distribution. Portion control improves performance through more accurate dilutions and reduces the amount of wasted solution.

The use of CorrectPac® products may help with the American Correctional Accreditation (ACA) standard.

For customers that deserve the best in value and customer service, Maryland Correctional Enterprises has an extensive selection of quality products and services to help your agency or business reach its full potential - all while staying within your budget.
